

CBR2 SERIES CARBON BLOCK MULTI-MEDIA CARTRIDGES

POWDERED ACTIVATED CARBON WITH ADSORBENT MEDIA

Pentair CBR2-10 and CBR2-10R Cartridges are advanced multi-media cartridges designed to reduce chlorine taste & odor and other contaminants.*

CBR2 Series Cartridges are manufactured using a powdered activated carbon (PAC) with a specially designed adsorbent media.

These cartridges are protected by a uniquely formulated polyolefin bilaminate prefilter, designed to significantly increase the useful life of the cartridge by trapping sediment that typically plugs carbon block cartridges.

The CBR2-10R has a built-in flow restrictor (0.6 gpm) to allow for maximum contact time.
